

RT2

Safety Glasses Specification Sheet

PRODUCT DESCRIPTION:

The RT2[®] has the squared look of trend-setting designer eyewear with the protection that meets ANSI-Z87+ standards. The durability of lightweight metal alloy frames is combined with the custom fit of non-slip rubber head-grips and adjustable PVC nose pad. Available in brass or chrome frames and lens tint combinations, including indoor-outdoor lens that is ideal for both natural and artificial light situations.

FEATURES:

- Exclusive Duramass[®] scratch resistant coating
- Adjustable Nose Pads
- Built on Side Shields for added protection
- Non-Slip soft temple material
- Rugged polycarbonate lens filters 99.9% of harmful U.V. rays

TECHNICAL DATA FOR: R2120

Frame Material: Metal
